

APAR: IZ16503 31191

Symptom: You can not specify the location of the CipherMigrator.ldap output file which can be very big. The current location is hard coded as <ITIM_HOME>/temp.

Note: Execute the following instructions for specifying a location for TEMP_HOME parameter. The value specified for TEMP_HOME will be used as the location for the CipherMigrator.log output file.

On Windows platforms:

1. Edit \$ITIM_HOME/bin/win/changeCipher.cmd file in any text editor.
2. Edit the entry 'ENV=%ENV% -DTEMP_HOME' as follows:

'set ENV=%ENV% -DTEMP_HOME=<specify any temporary directory>'

3. Save the file.

On non-Windows platforms:

1. Edit \$ITIM_HOME/bin/unix/changeCipher.sh file in any text editor.
2. Edit the entry ""-DTEMP_HOME=' as follows:

""-DTEMP_HOME=\"<specify any temporary directory>\" \" \" \

3. Save the file.
