

APAR: IZ03822

Symptom: You are not able to generate ITIM reports with Lifecycle information.

Note: Execute the additional steps listed below:

Execute the following steps to be able to generate ITIM reports with Lifecycle information :

1. Open <ITIM_HOME>/data/reportingLabels.properties in any text editor.
2. Find the statement "rootprocessview.type.ls=life Cycle Rule Execution".
In this statement replace 'ls' with 'lc'. So after the change, the line will be as follows -
"rootprocessview.type.lc=life Cycle Rule Execution"
3. Add a new label by adding the following line:
'process.type.lc=Life Cycle Rule Execution'
4. Save the file and quit the editor.
